- Punjabi

OBJECTIVE

Highly motivated BSIT student seeking a Developer Internship to to apply my skills in HTML, CSS, JavaScript, PHP,React.js and React-native. I am eager to contribute to innovative projects while learning from industry professionals and gaining real-world experience in full-stack web development.

EDUCATION

BS in Information Technology 2021 - 2025
University of Punjab, Gujranwala Campus
GPA: 3.62 / 4.0

FSc. Pre-Medical 2018 - 2020
Punjab Group of Colleges, Gujranwala
MARKS: 994/1100

PROJECTS

Car Rental Website(PHP Web Development Project)

Developed a web-based car rental system using PHP and MySQL. The platform includes user registration/login, car listings, booking functionality, and an admin panel to manage cars and rentals.

Secure Shopping Platform (PHP Project)

Developed a PHP website with user authentication, profile picture upload, and role-based access (admin/user). Only registered users can view products. Implemented secure input validation and custom database schema.

Online Shopping Management System Database

Designed a relational database to manage customers, orders, payments, and inventory with optimized queries and basic security measures.

Wireless Network Hacking (Cybersecurity Project)

Performed ethical hacking on wireless networks to identify vulnerabilities and suggest security improvements using penetration testing and encryption techniques.

Super Asia Network Infrastructure Configuration

Configured network infrastructure with VLANs, firewalls, and access Controls to ensure secure and efficient connectivity.
